

Ayushman Chakraborty

Bengaluru, India +91 99165 26200 ayushman.mitblr@gmail.com [LinkedIn](#) [GitHub](#) [Portfolio](#)

Profile Summary

Final year Computer Science student at Manipal Institute of Technology Bangalore specializing in Data Science. Experienced in building full stack systems, personalized engineering platforms, and autonomous generative AI pipelines including Retrieval Augmented Generation (RAG) and agentic workflows. Built and shipped AI applications end to end during a Software Engineering internship at Wipro. Proficient in Python with a strong focus on backend development, system design, and reliable generative AI solutions for real world problems.

Technical Skills

Languages: Python, SQL (PostgreSQL, MySQL, SQLite), JavaScript

Software Engineering: Object Oriented Programming (OOP), Data Structures and Algorithms (DSA), REST APIs, Microservices, System Design, Git, FastAPI, Docker

AI and GenAI: LangChain, Retrieval Augmented Generation (RAG) Pipelines, Agentic Workflows (n8n), Prompt Engineering, Large Language Model (LLM) Evaluation, FAISS and BM25 Vector Search, GPT 4o (Azure OpenAI), Groq API (Llama 3.1)

Machine Learning and Data Science: scikit learn, PyTorch, XGBoost, pandas, NumPy, Time Series Forecasting, Statistical Hypothesis Testing, Exploratory Data Analysis (EDA)

Familiar With: Apache Spark, PySpark, Hugging Face Transformers, React, Node.js, MLflow, LangGraph, Model Context Protocol (MCP), Tableau, Power BI

Work Experience

Wipro Limited

Jun 2025 to Jul 2025

Software Engineering and Generative AI Intern

Bengaluru, India

- Built AutoBlog, an AI tool that automatically converts technical videos into written blog posts with code snippets, removing the need for analysts to watch full videos.
- Created a backend system using Python and Azure OpenAI to extract audio and code from videos across 30 internal corporate sources.
- Designed a modular testing layer that improved processing speed by 40 percent and achieved 98 percent consistent outputs across varied video formats.
- **Stack:** *Python, SQL, pandas, Whisper, GPT 4o, Azure OpenAI, Docker, Streamlit, Git*

Projects

Multimodal Document Intelligence Engine | [GitHub](#)

Feb 2026

- Designed a flexible FastAPI backend architecture supporting swappable search strategies, including Optical Character Recognition (OCR) and vector search, for a document analysis and question answering tool.
- Achieved 86 percent accuracy on a document question answering benchmark. Built a Streamlit dashboard to test the model and verify its sources with automated tests.
- **Stack:** *Python, LangChain, FAISS, BM25, GPT 4o, OCR, FastAPI, Docker, REST APIs, Streamlit, pytest*

InterviewAI: Voice Based Technical Interview Platform | [GitHub](#)

Jun 2026

- Built a real time system using WebSockets to stream audio and generate adaptive follow up questions based on candidate answers.
- Built an evaluation system to score candidates on technical skills and communication, generating automated performance reports for feedback.
- **Stack:** *FastAPI, WebSockets, Next.js, Groq Whisper, Gemini API, SQLAlchemy*

Codebase Intelligence System | [GitHub](#)

May 2026

- Used tree sitter to parse and split code by functions and classes across six programming languages, enabling structured analysis of entire repositories.
- Built an AI agent that searches through files, traces imports, and identifies function ownership, achieving 84 percent accuracy in locating relevant functions.
- **Stack:** *Python, FastAPI, tree sitter, FAISS, BM25, flashrank, LangChain, Groq, Gemini, Docker, pytest*

Achievements

Top 5 of 50 Teams | Hackverse Hackathon organized by IBM SkillsBuild and AWS

Aug 2025

LeetCode | 100 plus problems solved in Python across Data Structures and Algorithms

2026

Education

Manipal Institute of Technology

Bangalore, India

B.Tech Computer Science and Engineering, Specialization in Data Science | **CGPA: 7.5/10**

Jul 2023 to May 2027

- **Relevant Coursework:** Data Structures and Algorithms, Object Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Machine Learning, Deep Learning, Natural Language Processing, Large Language Models, Data Mining, Computer Vision, Statistical Hypothesis Testing

Certifications

MLOps: Deployment and Model Life Cycling | DataCamp | [Verify](#)

2025

Model Context Protocol (MCP) | Anthropic | [Verify](#)

2025
